

RHINO CAST FILM

Co-extruded 5 layer high yield

NEW GENERATION FORMULA

Australian Warehouse Solutions
Part of the *Fromm* Group of Companies

MACHINE WRAP

AWS has an excellent share of the Australian market place with the current range of films and pallet wrappers. With our new Rhino Film we intend to be the king of new products and technology whilst delivering the \$ for savings.

Features

- Ultra clear makes bar codes easy to read
- Lowest net cost per wrapped pallet.
- Stretches up to 250% to accommodate all types of wrappers
- Reduces warehouse noise
- Increased memory and new additives increases load unitising strength
- Vastly improved puncture resistance for sharp corners
- Manufactured by the latest “state of the art” extruders
- Increased holding force and puncture resistance

TESTING

Universally recognised “dart drop tests”
verify puncture resistance
